Commencement Date

Agreement No. 001

Addendum No. 049-CB

Sentinel High Availability Network Support (HANS™)

1. Inspection and Repair

Prior to the Commencement Date of Maintenance under this Appendix, the equipment covered hereunder and delineated in the Pricing Summary (“the Equipment”), shall be subject to inspection by the Contractor at no charge to the Customer, to determine if it is in acceptable condition for maintenance. Any repairs, adjustments or replacement of missing items deemed necessary by the Contractor to bring the Equipment up to an acceptable condition shall be the responsibility of the Customer. The Contractor reserves the right to modify, repudiate or terminate this Appendix if, in Contractor’s opinion, the Equipment is not capable of maintenance or if Customer refuses or fails to bring the Equipment up to an acceptable condition.

2. Responsibilities of Contractor

The Contractor shall, for the total charges set forth in the Pricing Summary, maintain the Equipment in good operating condition and furnish maintenance service during the Contracted Periods of Maintenance Service selected by the Customer as designated in the Pricing Summary.

The Maintenance Service includes:

- a. Unscheduled Remedial Maintenance Service during the Contracted Periods of Maintenance Service when notified by the Customer that the Equipment is inoperative.
- b. All costs of labor and field installable parts deemed necessary by Contractor to be required for maintaining the Equipment as a result of normal wear and tear. At Customer’s request, Contractor will, for additional time and material cost, make required repairs not attributable to normal wear and tear.
- c. The installation of new parts or parts equivalent to new in performance. Replaced parts shall become the property of Contractor. Contractor shall be responsible for the replacement of only those parts unusable as a result of normal usage and wear and tear.
- d. With regard to end of life products, Contractor shall use its commercially reasonable best efforts to support said products until such time it is determined, in Contractor’s sole discretion, that the support of these products is not economically viable. At the time that determination is made, Contractor shall notify Customer, in writing, and Contractor shall then be relieved of any and all obligation or liability relating to said products.

3. Responsibility of the Customer

- a. The Customer shall notify Contractor’s maintenance personnel upon Equipment failure and shall allow Contractor full and free access to the Equipment, subject to the Customer’s commercially reasonable internal security rules.
- b. The Customer shall not permit maintenance or repairs to the Equipment to be made or attempted, except as specified and approved in advance by Contractor.
- c. The Customer shall maintain the site environmental conditions throughout the Contracted Periods of Maintenance Service in accordance with the specifications established by the Equipment manufacturer.
- d. Prior to the Commencement Date of Maintenance under this Appendix, the Customer shall provide Contractor with an accurate inventory of the Equipment to be covered hereunder. Should Customer’s inventory be incomplete or otherwise inaccurate, Customer acknowledges that Contractor shall be absolved of any liability relating to the equipment not listed or misidentified, unless the parties agree to an additional charge for provision of service to that equipment. For multi-year contracts, this inventory shall be updated

by Customer annually. At Customer's request and for an additional charge, Contractor can perform an inventory of Customer's Equipment to be covered hereunder. If the Customer requests that modifications be made to the inventory during the Contracted Periods of Maintenance Service, then maintenance service will be supplied unless such modifications make it impractical for Contractor to render maintenance service, in which case Contractor shall be relieved of its responsibilities. If the requested modifications increase maintenance costs, Contractor shall have the right to adjust accordingly the maintenance charges specified in the Pricing Summary.

- e. In order to activate Contractor's restoration guarantees, Customer agrees to present Contractor with up to date configurations of the covered devices at time of failure. However, if the Customer has a monitoring/managed services agreement in place, Sentinel can provide the configs via monitoring/managed services. Contractor's restoration guarantees will not be in full force or effect until Customer provides engineer active configuration at time of failure. In the event Customer does not provide the configuration information, any incremental effort required during the restoration process that is attributable to missing configuration information may result in additional charges.
- f. It is the Customer's responsibility to maintain and supply Contractor with current server backups as requested to facilitate system restoration. Contractor is only responsible to restore data based on the latest known good backup that Customer has supplied. In the event Customer does not provide a conforming backup, any incremental effort required by Contractor as a result of the non-conforming backup may result in additional charges.
- g. Customer shall inform Contractor of any end of life, replacement or phase out notifications it receives from Equipment manufacturers, dealers or agents.

4. Call Recording

The recording and/or monitoring of incoming and outgoing telephone calls between Contractor and Customer will be undertaken by Contractor, subject to the consent of all parties to such calls, for the purpose of providing constructive performance feedback, pursuing complaints, taking corrective action, measuring satisfaction or for any other purpose Contractor deems relevant to improving customer service.

5. Periods of Maintenance Service Availability

- a. The Annual Maintenance Fee and the Contracted Periods of Maintenance Service available to the Customer are stated in the Pricing Summary. Notwithstanding the terms therein, the activation of the obligations under this Appendix commence no later than the date Contractor purchases any contracts or equipment on Customer's behalf.
- b. If the Customer removes individual Equipment from the system configuration, said individual Equipment may be added or deleted from maintenance coverage under this Appendix by giving Contractor thirty (30) days advance written notice. SMARTnet contracts purchased on the Customer's behalf are non-refundable. Contractor agrees to provide information to assist Customer in requesting a refund for prepaid SMARTnet contracts.

6. Excluded Services

The following services are outside the scope of this Appendix, but can be provided at an additional charge:

- a. Maintenance or repairs attributable to unauthorized attempts by or for the Customer to repair or maintain the Equipment; Equipment being used for purposes other than that for which it was designed; maintenance or repairs necessitated by Acts of God, war, government regulation, terrorism, disaster, strikes, civil disorder, accident, transportation, or similar emergency beyond the parties' control; failure to provide suitable environmental conditions; fault or negligence of the Customer, its agents, employees or assigns; improper use or misuse of the Equipment; and causes external to the Equipment, such as, but not limited to, power failure, air conditioning failure, and electrostatic conditions.
- b. Furnishing supplies or accessories, or refurbishing of Equipment.
- c. Installation, moves, adds, or changes to Equipment/software.
