**Sentinel High Availability Network Support (HANS) is governed by the terms and conditions outlined in the final contract. You may request a copy of those terms prior to receiving the support contract.**

With regard to any software licenses installed by Contractor as necessary to effectuate the provision of services under this Agreement, thus not within the scope of the deliverables, Customer is hereby prohibited from duplicating said software in any form or fashion and is further restricted from using the software beyond the intended scope set forth herein. Moreover, Customer is restricted from licensing, sublicensing or transferring said software to any third party (except to a related party) without the express permission of Contractor, under which circumstance the software shall stay under the control and auspices of the Contractor. In the event Customer loses or damages the software, a copy may be provided at a nominal charge. Contractor may, at its discretion, remove said software upon the completion of its provision of services. Alternatively, at the end of this engagement or the license period, whichever occurs first, Customer is required to either destroy or return all copies of said software to Contractor, as expressly directed by Contractor.

Terms: Net 30 days.

The manufacturer/support provider has the right to inspect any products that have either never had support coverage or have not had support coverage for an extended period to determine their eligibility for maintenance/support. Devices subject to inspection will be flagged as such and are subject to a non-refundable inspection fee, which shall be the responsibility of Customer. Sentinel will work with the manufacturer/support provider on Customer's behalf until device eligibility is determined. Devices that do not pass the inspection will be ineligible for support.
