INSTRUCTION

6:290 Homework

The assignment of homework begins early in the student's elementary school experience and is the logical extension of the regular schoolwork.

Homework assignments may be designed to supplement or enrich the regular school curriculum.

Assigned homework should be considered as an integral and ongoing component of the curriculum and may be used in the evaluation of student progress.

The amount of homework should be appropriate for the individual student and, whenever possible, scheduled to avoid unreasonable expectations.

Missed Homework

Students absent for a valid cause may make up missed homework in a reasonable timeframe per policy 7:70, Attendance and Truancy.
